

Telling the Time

Learning objective: To tell the time to the nearest five minutes using analogue clocks

Read each question carefully and answer to the best of your ability. You can use the clocks and times given to help you.

1. Max the monkey has a clock in his treehouse. The short hand is between the 4 and the 5, and the long hand is on the 8. What time is it? Remember to draw the clock face to help you. (3 marks)

2. A child's favourite TV show starts at 4:40pm. If it is currently 4:15pm, how many minutes until the show starts? (2 marks)

3. Pip the caterpillar has a clock with Roman numerals. If the short hand is on the VI and the long hand is on the IX, what time is it in numbers? (2 marks)

4. Nova the owl is getting ready for bed at 8:50pm. If she needs to be asleep by 9:10pm, how many minutes does she have to get ready? (2 marks)

5. Ellie the elephant is having a birthday party at 2:45pm. If the party is going to last for 1 hour and 15 minutes, what time will it finish? (2 marks)

6. Finn the dolphin has a clock that shows 11:05am. If he adds 35 minutes, what time will it be? (2 marks)

7. A farmer's market opens at 9:00am and closes at 1:00pm. How many hours is the market open? (2 marks)

Draw: Draw a clock face showing 12:45pm. Label the short hand and the long hand.

Extension challenge: Create a timetable for a day at school, including the times of lessons and breaks. Make sure to include at least 5 different times.
